# Safe Storage for Your Furs

---

*Dry, Fresh Air Always Below  
Freezing*

---

The Eaton Fur Storage Vaults ensure storage that is frostily cold, scientifically cold and always cold.

Every few minutes gusts of fresh, clean air blow into the farthest corners of the chamber. Every hour, day and night, a watchman punches its temperature clock to see the furs are cold and safe.

Furs, too, are first cleaned thoroughly before entering the chamber, and hung on separate hangers—and are safe from dust, heat and moths until winter comes again. Insured, too, against fire. There's accommodation for 3,000 coats, and the charge is but 2% of garment's value.

REPAIRS AND ALTERATIONS MADE  
AT MODERATE EXTRA CHARGE

Women's Fur Section, Fourth Floor, Portage.
